## EDUCATION

### *Master of Architecture*

University of Tennessee, Knoxville

Graduate Studies

May 2020 - May 2022

### *Bachelor of Science in Interior Architecture*

University of Tennessee, Knoxville

Undergraduate Studies

August 2016 - May 2020

## PROFICIENCIES

Revit

Bluebeam Revu

Enscape

Procore

Sketchup

Adobe Illustrator

Adobe InDesign

AutoCAD

Rhino3D

Hand Model Making

3D Printing

Adobe Photoshop

*NOTE:* I am always willing to learn more skills to expand my knowledge and get the job done!

## EXTRACURRICULARS

### *Graduate Assistant*

University of Tennessee, Knoxville

August 2021 - January 2022 Courses:

- » Design Research in Technology
- » Schematic Design Technology
- » Representation IV: Information Modeling

## EXPERIENCE

### Architectural Designer II - *OZ Architecture*

May 2024 - April 2025 | Multi-family, Spas, & Resorts

- » Facilitated Pool and Spa coordination and tasks with Structural, MEP, and Spa consultants, helping achieve the client vision while working around existing conditions, unknown factors, & a desire for minimal rework of existing exterior and structural elements
- » Planned, coordinated, & integrated Multi-Family Unit layouts and RCPs, while also researching and applying requirements to code drawings, increasing my understanding of the typology
- » Focused mostly on Design Development and Construction Document phases for projects utilizing CLT, Concrete, and Wood-framed construction types in both Colorado & Florida environments; allowing me to hone in more of my knowledge of buildability, building envelope, & material interaction

### Architectural Designer I - *Barker Rinker Seacat Architecture*

July 2022 - May 2024 | Recreation Centers, Parks, & Local Gov. Facilities

- » Collaborated on large scale Rec. Center designs from SD's through CD's on Architectural tasks, and assisting our Interior Design team with tasks when needed
- » Maintained and updated the Architectural Library and facilitated Continuing Education presentations for the whole office, facilitating representative contacts and material sample availability for design palettes & Client Workshops
- » Designed Feasibility study drawings, diagrams, and final reports for communities to present at bond initiatives for funding the design and construction of new facilities
- » Presented plans, diagrams, materials and imagery at Client / Contractor Workshops expressing project updates or challenges, inspirations and possibilities, as well as gathering feedback for implementation
- » Managed RFI's and Construction Administration for small Recreation Center renovation projects, ensuring the client's projects were completed as expected, reducing field mistakes & problem-solving unexpected hurdles through collaborative detail modifications, in-field mock-ups, constant Contractor coordination, & on-site reviews
- » Attended preliminary site visits to document existing conditions and translating images, sketches and dimensions of existing and new build projects into Revit / Sketchup for massing studies, internal project setup, and 3D representation
- » Managed project team Revit models, from uploading and publishing to ACC/BIM360 for BIM coordination between consultants, weekly model purging and auditing to maintain efficient file size and prevent corrupt elements hindering work, & resolving model/family issues resulting in more accurate architectural drawings

### Architectural Intern - *Southeast Venture Design*

May 2021 - August 2021 | Urban Design, Mixed-Use, & Multi-family

- » Managed and set up Revit sheets and completed details for architectural drawing sets
- » Sketched schematic site plans in order to produce multiple quick iterations of possible adjacencies while studying the pros/cons before implementing into a Revit model
- » Attended multi-family construction sites and assisted in completing punch walks for elements to be addressed by the contractor before final signoff to the client

*NOTE:* References and further work history/internships available upon request.
